IDENTIFICATION OF PHOTOGRAPHS (Cuban diplomatic installation)

8. In view of the departure from Mexico of LITAMIL/9, who in the past has made most LIONION photo identifications, the Station feels that the bulk of the LIONION photographs should perhaps be quickly transmitted to JMWAVE for review by such assets as AMMUG/1 and AMNIP/1. As with previous transmittals of LIONION photographs to Headquarters, the pulse camera films would be processed only through the negative stage by the Station and printing would have to be done in PBPRIME.

[HMMA-26006, 30 April 1965 - 50-6-122/3]

3. It will be recalled that in the last progress report [see above] the Station requested Headquarters and JMWAVE views on forwarding LIONION photographs to JMWAVE. This request was promptly answered by HMMW 13645 and photographs have accordingly been sent to JMWAVE which, by having AMMUG/1 screen them, has already made one important DGI identification.
